

A Greener Toronto.

Pennie and Helen are proud supporters of Evergreen and the Brick Work Project. Please enjoy all that they have to offer in your own backyard.

Evergreen has been transforming Toronto's historic Don Valley Brick Works factory from an underused, deteriorating collection of buildings into a thriving environmentally-based community centre that engages visitors in diverse experiences connected to nature.

Imagine a place where...

- Trees and plants are grown to support the greening of schools, parks, waterfronts and residential landscapes across Toronto
- You and your family can enjoy nature walks, see a great blue heron, deer, and a hawk soaring above
- Kids can explore Toronto's ravine system and develop a genuine respect and understanding of nature
- You can be inspired to start your own natural garden at home
- You can buy locally grown fruits and vegetables directly from the farmers who grew them.

Now, imagine that place is right in the heart of your city

EVERGREEN Brick Works will be a dynamic place that adapts and grows to meet new urban challenges. It will be a centre for innovation and fresh thinking that will inspire future generations to RETHINK their place in the world.
